If Thai children lack of love

Thai children lack of love

There are children of all ages in Thailand, but many of them lack love. They are lonely and disconnected from their families. They may feel sad and lose interest in life.

The Thai government has made efforts to provide care and support for these children, but there is still a need for more assistance.

It is important for parents and caregivers to provide love and care to their children. Children need love and affection to grow up healthy and happy.

The message is clear: we must care for our children. Love is essential for their development.
